Park mission: Preserved within Yellowstone National Park are Old Faithful and the majority of the world's geysers and hot springs. An outstanding mountain wildland with clean water and air, Yellowstone is home of the grizzly bear and wolf and free-ranging herds of bison and elk. Centuries-old sites and historic buildings that reflect the unique heritage of America's first national park are also protected. Yellowstone National Park serves as a model and inspiration for national parks throughout the world.

Welcome to Yellowstone. We're glad you're here.

Top 10 things to know

As you enter the park, please become familiar with some of the rules and advisories that are important to a safe and enjoyable visit. More are described inside and online at

www.nps.gov/yell/planyourvisit/rules.htm

Give wildlife a brake. Unless posted slower, top speed throughout the park is 45 mph (73 kph). To assure yourself enough stopping distance if you encounter animals unexpectedly, please slow down.

Watch from pullouts. If you see wildlife while driving, do not stop or impede the safe and free flow of traffic along any portion of the roadway. Instead, find the next established pullout, park, and watch from a safe distance.

Campfires are allowed only in designated grills in park campgrounds, some picnic areas and specific backcountry campsites. Ask locally about current fire restrictions. Campfires must be extinguished before leaving unattended.

at least 100 yards (91 m) from bears and wolves. A distance of 25 yards (23 m) is required from bison, elk, and other animals. Regardless of distance, if any animal changes its behavior due to your presence, you are too close.

including birds. Consuming human food is unhealthy and encourages aggressive behavior that may require management action. All

Do not feed any wild animals,

behavior that may require management action. All food, trash, coolers, and cooking tools must be kept secure in a bear-proof container unless in immediate use.

Stay on designated trails and boardwalks.
Ground in hydrothermal areas is fragile and thin, and there is scalding water just below. Visitors have fallen through and died here. Keep your children close at hand.

Unmanned aircraft are prohibited.

Launching, landing, or operating unmanned aircraft on lands and waters administered by the National Park Service is prohibited.

As you enjoy trails, **be bear aware.** You are safer hiking with groups of three or more. In areas of low visibility, make noise to avoid surprise encounters. Do not run from a bear under any circumstance. Carry bear spray and know how to use it safely.

Control your pet. Pets are not allowed on trails or boardwalks, in the backcountry or in hydrothermal basins. Where allowed, pets must be leashed and remain within 100 feet (30.5 m) of a road or parking area. Do not leave a pet unattended, tied to an object, or without adequate food, water, shade, ventilation, or other basic needs. Owners must bag and dispose of pet waste. We recommend that someone in your group remain with your pet to personally ensure their well being.

Cell phone service may be accessible in some developed areas and at the North and West entrances. Check with your provider for coverage areas. As a courtesy to others, please silence your mobile device while enjoying Yellowstone's natural features. Wi-Fi is available to visitors at the Mammoth Hotel lounge, the Old Faithful Snow Lodge, Lake Lodge cafeteria, and Grant Lodges for a fee.

Emergency Dial 911

Information line 307-344-7381

TTY 307-344-2386

Road updates 307-344-2117

Medical services • Yellowstone is on 911 emergency service, including ambulances. Medical services are available year round at Mammoth Clinic (307-344-7965), except some holidays. Services are also offered at Lake Clinic (307-242-7241) May 23–September 20 and at Old Faithful Clinic (307-545-7325) May 16–October 3.

Lodging, dining, and activity reservations

Xanterra Parks & Resorts 866-439-7375 (toll free) or 307-344-7311. TTY 307-344-5395

www.YellowstoneNationalParkLodges.com

Lost and found • Call 307-344-5387 to report or retrieve items lost in lodging facilities. To report or retrieve items lost in other parts of the park, call 307-344-2109.

Accessibility • A printed guide for visitors who use wheelchairs is available at all visitor centers. To arrange for an ASL interpreter for NPS ranger-led programs, call 307-344-2251 at least three weeks in advance.

All hazards NOAA weather radio • If you have a weather radio receiver, tune to 162.425 MHz (Mammoth area) or 162.450 MHz (Lake area) to receive hazardous weather alerts. You can also check for updates posted at www.crh.noaa.gov/riw/nwr/

The renovated Albright Visitor Center will re-open in Spring 2015.

Your national park experience has been nearly 100 years in the making

This spring, the newly renovated Albright Visitor Center in Mammoth Hot Springs will re-open to the public. This historic structure (above) was built by the United States Army in 1909 as bachelor officers' quarters for the cavalry troops who protected the park before the creation of the National Park Service.

On August 25, 2016, the National Park Service will celebrate its 100th anniversary. Named to honor the legacy of Horace Albright, the first NPS Superintendent of Yellowstone and the second Director of the National Park Service, the building served as a museum, an archive, and even post office, before becoming the Albright Visitor Center in 1979. As the National Park Service looks toward our second century of service, we are committed to connecting with and encouraging the next generation of park visitors, supporters, and advocates. Since construction in 1909, this building has served the visitors and resources of Yellowstone National Park and we are excited to share this next incarnation with you.

Over the last two years, the building has been retrofit to withstand seismic activity and for improved accessibility. Albright will feature all new exhibits on park history, leading up to the birth of the National Park Service. The diverse and abundant wildlife of the park's northern range will be on display in exhibits that explore their natural history. An orientation area with interactive displays will offer enhanced trip planning information.

You are the reason that Yellowstone National Park exists here today. So are your children, and their grandchildren. Many of the people who work and volunteer here enjoy sharing the park with visitors because it allows them to see it fresh through your eyes. Please, seek us out –

- Step inside a visitor center and explore the exhibits and interpretive offerings.
- Carve time into your travel plans to attend a ranger walk, talk, or evening program.
 Our summer offerings begin Memorial Day weekend and run through Labor Day weekend.
- Encourage your child to complete a Junior Ranger or Young Scientist activity booklet.
 Many rangers believe leading a child through the Junior Ranger program is one of the most important and honor-bound duties we have.

If you have suggestions for how we can further improve your experience, fill out a comment form at a visitor center, or make use of contact information published here and on the park website at www.nps.gov/yell

Have a safe visit and come back soon.

Superintendent Daniel N. Wenk

Keep your distance 2.5 yards (23 m) 100 yards (91 m) Do not approach wildlife

- Federal regulations require you to stay at least 100 yards (91 m) away from bears and wolves, and at least 25 yards (23 m) away from all other wild animals, such as bison, elk, bighorn sheep, deer, moose, and coyotes.
- If an animal moves closer to you, you should move to maintain the appropriate distance.
- Do not surround, crowd, or disrupt an animal's path of movement.
- If other visitors put you or wildlife in danger, leave the scene and notify a park ranger.

25 yards (23 m)

100 yards (91 m)

These activities are prohibited within Yellowstone

- Willfully remaining near or approaching wildlife, including nesting birds, within any distance that disturbs or displaces the animal.
- Traveling off boardwalks or designated trails in hydrothermal areas.
- Throwing anything into thermal features.
- Swimming in hot springs.
- Removing or possessing natural or cultural resources (such as wildflowers, antlers, rocks, and arrowheads).
- Leaving detachable side mirrors attached when not pulling trailers.

- Traveling off-road by vehicle or bicycle.
- Camping outside of designated areas.
- Spotlighting wildlife (viewing with lights).
- Imitating elk calls or using buglers. Imitating wolf howls.
- Using electronic equipment capable of tracking wildlife.

For more information, consult 36 CFR and the Superintendent's Compendium posted online at www.nps.gov/yell/parkmgmt/ lawsandpolicies.htm

Unmanned aircraft prohibited

Launching, landing, or operating unmanned aircraft on lands and waters administered by the National Park Service is prohibited. Please check at a Visitor Center or Ranger Station for further information.

Park Tip Line • To report a crime or criminal activity please call 307-344-2132. Leave as much detail

as you can. Remain anonymous, or leave a name and number.

Firearms—know your responsibilities.

Firearms are allowed in national parks pursuant to state and federal regulation. They are prohibited in facilities where signs are posted, such as visitor centers, government offices, and some concession operations. Discharge of firearms is prohibited. Possession and use of weapons, such as air guns, bows and arrows, spears and slingshots, is also prohibited. Details are available at www.nps.gov/yell/parkmgmt/lawsandpolicies.htm

Keep your food secure

Do not feed any wildlife, including small mammals and birds. Consuming human food is unhealthy and encourages aggressive behavior that may require animals to be destroyed.

All food, trash, and scented items must be kept bear-proof at all times. Tents, truck beds, and picnic tables are not secure. In some areas, ravens have learned how to unzip packs and scatter the contents.

None of these items, even if clean and empty, may be left unattended at any time:

- Water and beverage containers
- Cooking or eating utensils
- Stoves and grills
- Coolers and ice chests
- · Garbage—bagged or not
- Food, including condiments, even if in containers
- Cosmetics and toiletries
- Pet food and bowls
- Pails, buckets, and wash basins

Stay on boardwalks

You must stay on boardwalks and official trails around hydrothermal features. The ground surface is thin, and often overlies scalding water. Visitors have died here.

These activities require a permit

- Fishing
- · Boating or use of float tubes
- · Overnight backcountry camping
- Travel with a service animal in the backcountry
- All commercial services
- Commercial filming and photography with props or models
- Stock entry into the park requires Coggins testing

For your health

- Toxic gases may exist at dangerous levels in some hydrothermal areas. If you feel sick, leave immediately.
- Much of the park is above 7,500 feet (2,275 m). Allow yourself time to acclimate and drink plenty of liquids to avoid dehydration. Be aware of your physical limitations and don't over-exert. Visitors with cardiac or respiratory medical history may wish to consult a physician before a visit.

Backcountry camping

Overnight backcountry camping in Yellowstone requires a permit. Permits can be obtained up to two days before the start of your trip at any backcountry office. Permits are free prior to Memorial Day. From Memorial Day through September 10, a per-person, per-night fee applies.

- Backpackers and boaters: \$3 per-person per-night (group maximum \$15 per night).
- Groups with stock animals: \$5 per-person per-night.

Detailed information on backcountry permit fees and making advanced reservations is available online at

www.nps.gov/yell/planyourvisit/backcountryhiking.htm

Backcountry Offices are located at:

- Albright Visitor Center
- Tower Ranger Station
- Canyon Visitor Education Center
- · Bridge Bay Marina
- Grant Village Visitor Center
- South Entrance
- Bechler Ranger Station
- Old Faithful Ranger Station
- West Yellowstone Visitor Information Center

Boating

Motorized boating is allowed on most of Yellowstone Lake and on Lewis Lake. Only non-motorized boating is allowed on most other lakes. Only one river is open to non-motorized boating, the Lewis River channel between Lewis and Shoshone lakes. Permits are required for all boats and float tubes. Boaters must have a Coast Guard-approved wearable flotation device for each person.

All boat permits (motorized, non-motorized and float tubes) can be purchased at the South Entrance, Grant Village Backcountry Office, and Bridge Bay Ranger Station. Mammoth Backcountry Office sells only non-motorized permits (kayak, canoe, or float tube). Northeast Entrance, Canyon and Old Faithful backcountry offices, and Bechler Ranger Station sell only **float tube permits.**

STOP AQUATIC All boats will be inspected **HITCHHIKERS!** by NPS rangers for Aquatic Invasive Species (AIS) when obtaining a permit. As a

precaution, any type of watercraft suspected of harboring AIS will be subject to a non-chemical decontamination treatment.

Transporting water, or any aquatic plants and animals into park waters is illegal. Aquatic Invasive Species are nonnative plants and animals that can cause irreversible harm to the park ecosystem. New Zealand mudsnails, whirling disease, and lake trout have resulted in loss of native fish and closure of some areas. Watercraft users and anglers are asked to inspect all items that may come in contact with park waters, ensuring that they are clean and dry. If you witness a violation, call 307-344-7381 or contact a ranger.

General fishing season opens May 23

The general fishing season opens May 23. However, some areas remain closed until July 15. Fishing permits are required in Yellowstone, state-issued fishing permits are not valid within the park. Anglers 16 years or older need a permit to fish in the park. Younger children can fish for free under certain conditions.

Anglers are responsible for knowing how to tell the difference between species. Native fish must be released unharmed back into the water immediately. These include:

- Arctic grayling
- · cutthroat trout
- · mountain whitefish

Special tackle restrictions are also in effect for park waters:

- · Hooks must be barbless.
- · Tackle and lures must be non-toxic. Leaded split-shot sinkers, soft lead-weighted ribbon, and other toxic tackle are not allowed.
- Bait is not allowed. Organic bait (worms, minnows, etc.) and inorganic bait (rubber worms, scented attractant, etc.) are both prohibited.

Permits are available as locations open. Inquire at ranger stations, visitor centers, or general stores, and at select locations outside the park. Regulations are posted at

www.nps.gov/yell/planyourvisit/fishing.htm

Visiting anglers asked to help manage invasive lake trout

Each year, visitors catch about 9,000 nonnative lake trout. Regulations require anglers to kill all lake trout that they catch in Yellowstone Lake and its tributaries.

Yellowstone Lake's native cutthroat trout are severely threatened by lake trout, voracious predators that were introduced illegally to the lake and verified in 1994. Adult cutthroat trout are a critical food source for a variety of wildlife such as bald eagles, ospreys, pelicans, cormorants, gulls, otters, and grizzly bears. Lake trout do not serve this same role for wildlife throughout the ecosystem.

The park now targets lake trout with an intensive gill-netting program that begins each spring after ice is gone from Yellowstone Lake and continues into October. While managers don't expect to eliminate lake trout entirely,

they do hope to limit growth of the population and to recover cutthroat trout to the greatest extent possible.

More information is available online at www. nps.gov/yell/planyourvisit/fishing.htm

Each year, an individual lake trout can prey upon as many as 41 cutthroat trout.

Joining the herd

Bison are animals of the grasslands; they eat primarily grasses and sedges. The bison is the largest land mammal in North America.

Cows, calves, and some younger bulls comprise a herd. Mature bulls spend most of the year alone or with other bulls. Except during the rut, or mating season.

After a gestation period of 9 to 9 1/2 months, calves are born in late April and May. Orange fur makes them easy to see, even from a distance. Look for them in open country along the Lamar, Yellowstone, Firehole, and Madison rivers.

Calves can keep up with the herd about 2–3 hours after birth and are well protected by their mothers and other herd members.

Be prepared for bear country Wildlife scientists note take photographs from inside your car. that there is an average of one bear attack in the park each Store all food, trash, and scented year. In 2011, in separate inci-

Hiking in bear country takes appropriate preparation. Before you set out, be sure to learn what to do if you ever encounter a bear unexpectedly.

dents, two visitors were killed

by bears inside the park. Your

safety cannot be guaranteed.

You are most likely to encounter bears at park roadsides

If you see a bear while driving, do not stop and do not block any portion of the road. Regardless of what other people do, keep moving to the next paved pullout and park safely. If the bear is within 100 yards, watch and

items properly

All food, trash, scented items, coolers, and cooking tools must be kept secure in a bearproof container or vehicle. Tents, truck beds, unattended packs, and picnic tables are not secure.

For your safety and the safety of others, please report all bear incidents and wildlife encounters to a park ranger immediately.

For more information about your safety in bear country visit www.nps.gov/yell/planyourvisit/bearsafety.htm

Bear spray

Bear spray is proven to be highly successful at stopping aggressive behavior in bears.

Bear spray is sold at gift shops, outdoor stores, service stations, and bookstores inside the park, as well as in many stores in the surrounding communities.

If a bear charges at you:

- Remove the safety clip.
- Aim slightly downward and adjust for
- Begin spraying when the charging bear is 30-60 feet (10-20 yards) away.
- Spray at the charging bear so that the bear must pass through a cloud of spray.

If the bear continues to charge:

• Spray into the bear's face.

Once discharged, it is difficult to tell how much spray remains in the cannister. Follow manufacturer's recommendations for cannister replacement.

Recycling Bear Spray

Safe disposal of bear spray can be a challenge. It can't be taken on airplanes. And if thrown in the trash, it can injure others or become a hazard in landfills.

A group of private and public partners has developed a machine that safely removes active ingredients and propellant from each bear spray canister. The components are sorted for recycling and diverted from landfills.

Bear spray canisters can be recycled at park hotels, stores, visitor centers, backcountry offices, and ranger stations, as well as area camping stores, and the Bozeman airport.

Hiking in bear habitat

- BE ALERT watch for bears, fresh tracks, or scat.
- MAKE NOISE in areas with limited visibility.
- **CARRY BEAR SPRAY and** know how to use it.
- AVOID HIKING ALONE—hike with three or more people.
- DO NOT RUN.

Bear encounters

If you find a fresh carcass, bears may be just out of sight. Leave the area by the same route from which you approached.

Remember to check at local visitor centers or ranger stations for recent bear activity before hiking, and respect all bear management closure areas. Bears and other wildlife rely on carcasses for food and will protect a food source aggressively. Bears with cubs are especially dangerous.

- If you encounter a bear (most common)—slowly back away.
- If the bear charges at you (rare)—stand your ground and use bear spray.
- If a bear charges and makes contact with you (very rare) fall onto your stomach and "play dead."
- If a bear stalks you, then attacks (extremely rare)—fight
- If a bear attacks you in your tent (extremely rare)—fight

Quiet hours

During quiet hours, 10 PM to 6 AM, no loud audio devices or other noise disturbances are allowed. Where allowed, generators may operate only between 8 AM and 8 PM.

Group camping

Group camping (tents only) is available at Madison, Grant, and Bridge Bay for organized groups with a designated leader. Fees range from \$110 to \$360 (plus tax and utilities) per night, depending on group size. Advance reservations are required.

Food storage boxes

Food storage boxes are available at all of the campsites at Indian Creek, Pebble Creek, Slough Creek, and Tower Fall campgrounds. Many campsites in other campgrounds are also equipped with bear-proof storage boxes.

Camping makes memories for a lifetime

First-come, first-served

Campsite availability is first-come, first-served at the following NPS-operated campgrounds: Mammoth, Norris, Indian Creek, Lewis Lake, Pebble Creek, Slough Creek, and Tower Fall. During peak season (late June to mid-August) campgrounds may fill. Arrive early to obtain a site.

Reservable sites

Reserve sites at Canyon, Bridge Bay, Madison, Grant Village, and Fishing Bridge RV Park through Xanterra Parks & Resorts. Hookups are available at Fishing Bridge RV Park, including water, sewer, and 50 amp electrical service. Fishing Bridge is restricted to hard-sided camping units. Tents and tent trailers are not allowed. There are no picnic tables or fire grates.

Overflow camping

There are no overflow camping areas available within Yellowstone. No camping or overnight vehicle parking is allowed in pullouts, parking areas, picnic grounds, or any place other than a designated campground. Additional camping may be available in neighboring communities.

Check-in and check-out

Check-in any time, but sites may not be available before 11 AM. Registration desks at Xanterra's campgrounds are open 7 AM to 10 PM during peak season, and 8 AM to 9 PM during early and late season. Check-out time is 11 AM.

Length of stay

Camping is limited to 14 days from July 1 through Labor Day (first Monday in September) and 30 days the rest of the year. There is no limit at Fishing Bridge.

Discounts

Holders of Senior and Access passes receive approximately a 50 percent discount on camping fees, except at Fishing Bridge, where no discounts apply.

Know your vehicle, tent, and tow sizes

If you want to reserve a site, you will be asked for the length and width of your tent, RV, or the combined length of your vehicle and anything you are towing. For non-reservable sites, use the total combined length of your vehicle and trailer to determine which campground can best accommodate your rig.

In order of opening	Dates*	Rate	Sites	Elev (ft)	Features	RV sites

^{*}Campgrounds open at 8 AM of first date listed and close for the season at 11 AM of last date listed.

Yellowstone was established as the world's first national park primarily because of its unparalleled collection of geysers, hot springs, mudpots, and steam vents.

Hot springs are the most common hydrothermal features in the park. They vary from frothing mochalike boiling water to clear and calm pools of unfathomable depth.

Mudpots are acidic features with a limited water supply. Their consistency and activity vary with the seasons and precipitation.

Fumaroles, or steam vents, are the hottest hydrothermal features in the park. They are easier to see in cool weather.

Travertine terraces are found at Mammoth Hot Springs, where the interactions of water and limestone create chalk-white travertine.

Geysers erupt with steaming hot water. They are hot springs with narrow spaces in their plumbing, usually near the surface. The constrictions prevent water from circulating freely to the surface where heat would escape. The deepest circulating water can exceed the surface boiling point (199°F/93°C).

The Old Faithful Visitor Education Center is the educational gateway to the world's largest concentration of geysers and thermal features.

Visitor centers

Albright Visitor Center

Located at Mammoth Hot Springs and open daily, year round, the center offers information, a bookstore, trip planning, and ranger programs.

Through 5/22 9 AM-5 PM 5/23-9/30 8 AM-7 PM Oct. 1 through winter 9 AM-5 PM Call 307-344-2263

Canyon Visitor Education Center

Explore Yellowstone's supervolcano and other aspects of its geology through interactive exhibits, including a Kugel globe and room-size relief map of Yellowstone.

4/17–5/22 9 am–5 pm: restrooms, lobby and info desk only.

5/23–9/7 8 AM–8 PM 9/8–9/30 8 AM–6 PM 10/1–10/12 9 AM–5 PM Call 307-344-2550

Fishing Bridge Museum and Visitor Center

Offers exhibits about the park's birds and other wildlife, and Yellowstone Lake's geology, including a relief map of the lake bottom.

5/23–9/30 8 AM–7 PM Call 307-344-2450

Grant Visitor Center

Exhibits describe the park's historic fires of 1988.

5/23–9/30 8 AM–7 PM Call 307-344-2650

Madison Information Station

VISITOR CENTERS

Park highlights

Castle geyser

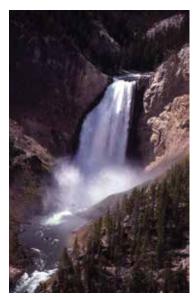

Hydrothermal features

In the 50 miles between
Mammoth Hot Springs
and Old Faithful, you will
see travertine terraces at
Mammoth Hot Springs, acidic
thermal features at Norris
Geyser Basin, mudpots and
geysers at Fountain Paint Pot,
plus beautiful hot springs
at Biscuit and Black Sand
basins near Old Faithful.
West Thumb Geyser Basin is
17 miles east of Old Faithful.
Mud Volcano is north of
Yellowstone Lake.

Grand Canyon

The Grand Canyon of the Yellowstone River extends from south of Canyon Village north to Tower Junction. The most famous and spectacular section, including the Upper and Lower Falls, is seen from overlooks in the Canyon Village area.

The North Rim Drive features trails and overlooks that are wheelchair accessible. South

Lower falls

Rim Drive takes you to Uncle Tom's Point, where you can view the Upper Falls, and to Artist Point, where you can enjoy breathtaking scenery.

Lake Area

Yellowstone Lake is the largest high-elevation lake (above 7,000 feet) in North America. It has 141 miles of shoreline and is more than 400 feet deep.

With the Absaroka Mountains as a stunning backdrop, this area offers boating, fishing, hiking, wildlife viewing, and hydrothermal features. You can visit historic buildings, view hydrothermal activity, and see the Yellowstone River flow from the lake on its journey as the longest undammed river in America.

Four visitor areas lie along the lake's shoreline: Fishing Bridge, Bridge Bay, Lake Village, and Grant Village.

Tours and activities

Authorized guides and outfitters

Many authorized guides and outfitters are ready to show you the wonders of Yellowstone, and each has a unique approach. Make sure that your guide, tour company, or other commercial service is fully authorized by the park. Report unauthorized operators to a park ranger, or contact Concessions Management at 307-344-2271. Authorized providers are listed on the park website at

www.nps.gov/yell/planyourvisit/guidedtours.ht

Yellowstone Association Institute

Programs about wildlife, plants, geology, and history are perfect for curious adults and families who want to spend a day or more exploring the park with a knowledgeable guide. To find out more, call 406-848-2400 or visit

www.YellowstoneAssociation.org

Xanterra Parks & Resorts

Under its concessions contract, Xanterra offers a wide variety of park tours and activities. In summer, visitors can enjoy photo safaris, partial or full-day tours, horseback and stage-coach rides, and boating and fishing adventures. In winter, there are partial or full-day tours by heated snowcoach, skiing, and snowshoe adventures. For more information, pick up an Experience Planner at any hotel or visit

www. Yellows to ne National Park Lodges. com

Programs for young people

Junior Ranger Program

If you are age 4 or older, you can become a Yellowstone Junior Ranger. Stop by any visitor center to purchase a new Junior Ranger

activity booklet for \$3. To earn your official Yellowstone Junior Ranger patch, you need to:

- Hike on a park trail
- Complete the age-appropriate activities on geothermal geology, park wildlife, and fire ecology.
- Attend a ranger-led activity—such as a talk, guided walk, or evening campfire program and get the ranger's signature.

Both children and adults benefit by learning more about the natural wonders of the park and sharing the fun of becoming a Junior Ranger.

Expedition: Yellowstone!

Live and learn in one of the most expansive outdoor classrooms. Yellowstone hosts teachers and their students in grades 4–8 in a five-day,

curriculum-based residential program. Classes learn about the natural and cultural history of Yellowstone, investigate issues affecting the Greater Yellowstone Ecosystem, and promote stewardship and preservation in the park and in home communities. Emphasis is on learning through direct experience in the outdoors. Students participate with teachers and parent chaperones in hikes, field investigations, discussions, and journal writing. Find out more at www.nps.gov/yell/forteachers.

YOUNG SCIENTIST YELLOWSTONE

Young Scientist Program

Children can become a Young Scientist by buying a self-guiding booklet for \$5 at the Canyon Visitor Education Center (ages 10 and older) or Old Faithful Visitor Education Center

(ages 5 and older). If you investigate the Old Faithful area, check out a Young Scientist Toolkit for the gear you need. Once you finish, you will be awarded a Young Scientist patch or key chain.

Outdoor ethics

The National Park Service is a partner of **Leave No Trace**, a national education program promoting responsible outdoor recreation and stewardship of public lands through outdoor

skills and ethics. The seven front-country principles for Leave No Trace are:

- Know before you go
- Stick to trails and camp overnight right
- Trash your trash and pick up (pet) poop
- Leave it as you find it
- · Be careful with fire
- · Keep wildlife wild
- Share our trails and manage your pet

Learn how to minimize recreation impacts and protect wildlands for future enjoyment. Visit www.LNT.org.

The member-driven Leave No Trace Center for Outdoor Ethics teaches people how to enjoy the outdoors responsibly. This copyrighted information has been reprinted with permission from the Leave No Trace Center for Outdoor Ethics: www.LNT.org

Bicycle safely

Bicycling is permitted on established public roads, parking areas, and designated routes. Bicycles are subject to the same traffic rules as automobiles and are prohibited on backcountry trails and boardwalks.

Regulations require that cyclists ride single file and we strongly recommend wearing a helmet and high visibility clothing. Park roads are narrow and winding with few shoulders. During April, May, and June, high snowbanks may make travel more dangerous. Road elevations range from 5,300 to 8,860 feet (1615 to 2700 meters), and services and facilities are relatively far apart. Be wary of over-exertion.

Some gravel roads are open to both bicycle and automotive traffic. Find information on routes and safety on the park website or pick up the *Bicycling in Yellowstone* brochure at a visitor center or ranger station.

An inside look at park heritage

The **Heritage and Research Center** is located just beyond the North Entrance in Gardiner, Montana. This state-of-the-art facility is home to Yellowstone National Park's museum collection, archives, research library, archeology lab, and herbarium. The temporary exhibit: "The Hayden Survey Through the Eyes of the Artists" chronicles the work of Henry Wood Elliott, Thomas Moran, and William Henry Jackson.

Although primarily a storage and research facility, tours provide an inside look at some of the collections. More than a century of historic records, nearly 90,000 photographic prints and negatives, 20,000 books and manuscripts, cultural and natural science specimens, archeological artifacts, and plant specimens from the earliest exploration of the park are curated within the facility.

Tours are available Tuesdays and Thursdays at 10 AM, May 26 through September 10, and are limited to 15 people. For reservations, call 307-344-2264.

Walking trails

Stretch your legs on self-guiding trails. Most offer wayside exhibits and a printed trail guide, available for a \$1 donation at trailheads and visitor centers.

Canyon Area

View the colorful Grand Canyon of the Yellowstone River and the Upper and Lower Falls from overlooks and walkways.

Forces of the Northern Range

Eight miles (12.9 km) east of Mammoth, exhibits describe how volcanoes, glaciers, and fire shaped the landscape, as well as identify the area's plants and animals.

Fort Yellowstone

Enjoy a walking tour of historic sites at Mammoth Hot Springs, from the time of U.S. Army, 1886–1918.

Fountain Paint Pot

View four types of hydrothermal features—geysers, hot springs, fumaroles, and mudpots—all in one place. Eight miles (12.9 km) north of Old Faithful.

Mammoth Hot Springs

Explore along the boardwalks winding through ever-changing travertine terraces and enjoy a scenic drive through the Upper Terraces.

Mud Volcano Area

Discover turbulent and explosive mudpots, including Mud Volcano and Dragon's Mouth. Located six miles (9.6 km) north of Fishing Bridge Junction.

Norris Geyser Basin

Explore the hottest, most dynamic geyser basin. Norris includes Steamboat, the world's tallest geyser, and a variety of other geysers and hot springs.

Old Faithful Area

The world's largest concentration of active geysers is here. View Old Faithful Geyser, then walk past hundreds of active geysers and hot springs along the Firehole River.

Old Faithful Historic District

Enjoy a tour of this historic district, which includes Old Faithful Geyser, the Inn, and other historic buildings.

Two Ribbons

Two miles (3.2 km) east of the West Entrance, enjoy a trail that loops beside a stretch of the Madison River and through a lodgepole forest affected by the historic 1988 fires.

West Thumb Geyser Basin

The boiling springs in this basin, including the famous Fishing Cone, discharge their waters into chilly Yellowstone Lake.

Where biology and geology thrive

Fumaroles, or steam vents, are abundant at Roaring Mountain. They are the hottest hydrothermal features in the park. They have so little water that it all flashes into steam before reaching the surface. The result is a loud hissing of steam and gases. They are easier to see in the cool weather of spring and early mornings.

Amid Roaring Mountain's steam and sulfur-rich gases, microscopic organisms are hard at work. This barren slope is the perfect home for *Sulfolobus acidocaldarius*. Billions upon billions of these thermophiles live here, consuming hydrogen sulfide gas and helping convert it into sulfuric acid. The acid breaks the mountain's volcanic rock into clay, accelerating erosion. Small, but mighty in numbers, *Sulfolobus acidocaldarius* help shape Roaring Mountain.

Roaring Mountain is located approximately six miles north of Norris Geyser Basin.

How do geysers work?

Lonestar Geyser

The Upper Geyser Basin of Yellowstone National Park has the largest concentration of geysers in the world. Geysers are hot springs with narrow spaces in their plumbing, usually near the surface. These constrictions prevent water from circulating freely to the surface where heat would escape. The deepest circulating water can exceed the surface boiling point (199°F/93°C).

The surrounding pressure also increases with depth, similar to the ocean. Increased pressure exerted by the enormous weight of the overlying rock and water prevents the water from boiling as it heats up.

As the water rises, steam forms. Bubbling upward, steam expands as it nears the top of the water column until the bubbles are too large and numerous to pass freely through the constrictions. At a critical point, the confined bubbles actually lift the water above, causing the geyser to splash or overflow. This decreases pressure on the system, and violent boiling results. Tremendous amounts of steam force water out of the vent, and the eruption begins.

Water is expelled faster than it can enter the geyser's plumbing system, and the heat and pressure gradually decrease. The eruption stops when the water reservoir is exhausted or when the system cools.

Yellowstone's geyser basins contain fountaintype geysers and cone-type geysers. Fountaintype geysers shoot water out in various directions from a pool of water. Cone-type geysers, like Lonestar Geyser (*photo left*) erupt in a concentrated jet of water from inside a rock formation.

Digital #YellowstoneNPS

Connect to Yellowstone from anywhere in the world. Get started on the park website. Plan your visit, customize your trip to the park at www.nps.gov/yell.

Webcams • Stay connected to Yellowstone's dynamic landscape through park webcams located at Old Faithful, Mammoth Hot Springs, and Mount Washburn Fire Lookout: www.nps.gov/yell/photosmultimedia/webcams.htm

Follow @YellowstoneNPS

Old Faithful has its own following **@GeyserNPS** on Twitter. This feed offers predictions for the eruption of Old Faithful Geyser ± 10 minutes throughout the day.

Videos and podcasts • Learn about Yellowstone's treasures through videos available on the park website, the YellowstoneNPS YouTube channel, or free from iTunes.

- *Minute out in it*: video shorts of the special sights and sounds of Yellowstone.
- Visiting Yellowstone: A series of orientation videos.
- *Exploring Yellowstone*: Ranger Bach takes you on a tour of the Upper Geyser Basin, home to Old Faithful Geyser.
- *Inside Yellowstone*: Short ranger talks on park features and processes.
- *Yellowstone InDepth*: Major park issues are discussed by park rangers, scientists, historians, and visitors.

Canon U.S.A., Inc., through a grant to the Yellowstone Park Foundation, supports multimedia education projects. These include the Old Faithful live-streaming webcam, more than one hundred videos and podcasts, and the new geyser app.

Signs of spring renewal

Spring in Yellowstone is a feast for your senses. Young animals are being born all around the park, birds are returning or passing through in their timeless migration, frogs call in the ponds. Listen and look for the sights special to this time of year.

Mountain bluebirds (above) return to Yellowstone National Park while winter still cloaks the landscape. These insect eaters feast on the beetles and other scavengers consuming animals killed by the winter. As they flit to and from perches, they look like pieces of the sky flying about.

Both **grizzly** and **black bear** cubs were born in the deep winter months of January and February, while their mother still hibernated. In March and April, they begin to venture out with their mother as she digs for roots, insects, and squirrels. Look for black bears

along the edges of wooded areas in the Lamar and Hayden valleys, or among the trees near Mammoth and Tower. Grizzly bears are usually seen in open areas.

Sandhill cranes also return to Yellowstone in April, usually in pairs. Listen for their guttural calling; because they blend well with their grassland habitat, they are heard long before seen. If you observe a long-legged, tall bird, look closely—it's likely to be the sandhill.

Bighorn sheep (below) give birth on the sheer cliffs between Tower Junction and Tower Fall. They and their lambs blend in with the columnar basalt, but be patient—sometimes just a hint of movement is all you need to finally spot them.

Free NPS Yellowstone Geysers app

Discover the natural wonder of the most famous geyser of all, Old Faithful, and other geysers with this free app that you can use during your visit to

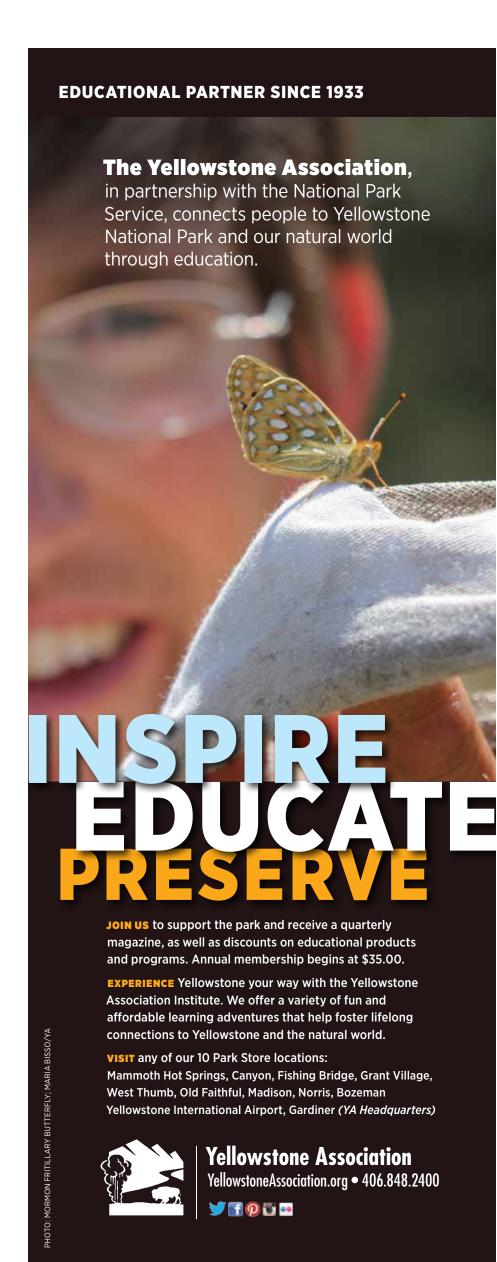

the park and at home. App access in the park is limited by cellular network availability.

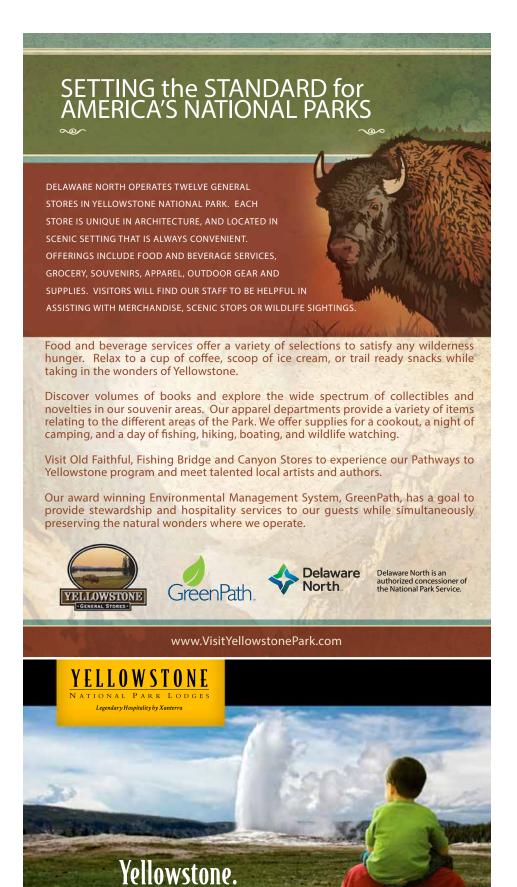

SUMMER ADVENTURE PACKAGES

Don't just see it, experience it.

THE TOTAL YELLOWSTONE PACKAGE

5 nights Offered May 31 – September 1, 2015 \$1,259 per person

YELLOWSTONE COUPLES ADVENTURE PACKAGE 5 nights Offered June 20 – October 3, 2015

\$1,798 per person WILD ABOUT YELLOWSTONE

Partners Protect and Preserve

The National Park Service mission

The National Park Service preserves unimpaired the natural and cultural resources and values of the national park system for the enjoyment, education, and inspiration of this and future generations. The National Park Service cooperates with partners to extend the benefits of natural and cultural resource conservation and outdoor recreation throughout this country and the world.

As an integral part of our mission, Yellowstone National Park, park concessioners, and park partners are committed to reducing the ecological footprint of park operations and preserving natural resources through sustainable practices. During your time in Yellowstone and beyond, we encourage you to do your part by practicing the following:

Please properly dispose of all waste items. Recycling bins are located throughout the park for plastic, glass, metal, paper, cardboard, propane canisters, bear spray, batteries, and more.

Yellowstone National Park encourages you to stay hydrated during your visit. Please use a reusable water bottle and fill it up for free at our many water filling locations.

In an effort to reduce harmful emissions from idling, please turn your vehicle off while you are parked or stopped for more than 30 seconds. Emissions can also be reduced by carpooling and utilizing transportation services to tour the park.

Reduce energy use by turning off lights, heat, and electrical devices when you leave your rooms.

Help reduce water consumption by being aware of your water use. Turn water off while brushing your teeth, shorten showers, and participate in towel and linen reuse programs if you are staying in park lodging.

This sustainability message is brought to you by the Yellowstone Environmental Coordinating Committee, a team of National Park Service employees, park concessioners, and non-profit partners working together to combine extensive resources to elevate the potential for sustainability achievements in Yellowstone National Park. The YECC is comprised of representatives from Delaware North Companies, Medcor Inc., National Park Service, Xanterra Parks & Resorts, Yellowstone Association, Yellowstone Park Foundation, and Yellowstone Park Service Stations.

MEDICAL SERVICES AT YELLOWSTONE

- **Emergencies** Dial "911" or contact any National Park Service ranger within Yellowstone. Specially trained rangers provide rescue, emergency medical care, and ambulance service.
- Medical Clinics Medcor operates three urgent-care clinics within Yellowstone park. The clinic at Mammoth is open year round, staffed by a board-certified physician and experienced RNs. The clinics at Lake and Old Faithful are open seasonally (see below for schedules). All of these clinics are open to the public and are staffed and equipped for most medical emergencies and routine care. Services include injury and illness treatment, x-rays, and some lab and pharmacy services. If in-patient care or advanced services are required, the clinic staff can stabilize patients and arrange for appropriate transfer to a hospital.
- Eastern Idaho Regional Medical Center
 Air and ground ambulance, emergency medical direction, training, and trauma/ specialty care from one of the top Trauma Centers in the U.S. www.eirmc.com

For more information visit www.medcor.com/Yellowstone

Medcor is an authorized concessioner of the National Park Servic
© 2015-2010 Medcor, Inc. All rights reserverd.

Mammoth Clinic (307) 344-7965 Open Year Round Mon - Fri May 29 - Sept 30 also open Sat & Sun

Lake Clinic (307) 242-7241 Open May 22 - Sept 19; 7 days a week

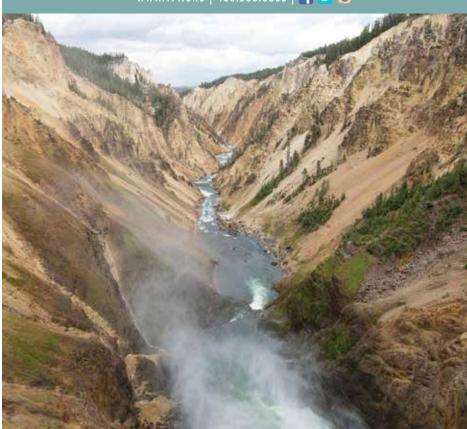

Old Faithful (307) 545-7325 Open May 15 - Oct 2; 7 days a week

Call for hours of operation. Appointment are not required; walk-in patients are welcome.

America the Beautiful: National Parks and Federal Recreational Lands Pass

The National Park Service manages approximately 83 million acres in all 50 states, the Virgin Islands, Puerto Rico, Guam, and American Samoa. To learn more about the National Park Service and its programs in America's communities, visit www.nps.gov.

This pass provides several options for people to use at federal recreation sites, including national parks and wildlife refuges, where entrance fees are charged. You can purchase this pass at one of Yellowstone's entrance stations, at Yellowstone Association bookstores (inside visitor centers), or visit http://store.usgs.gov/pass

The pass is not good for camping or for some other fees such as concessionaire parking fees at Mount Rushmore, or cave tours at various parks. Inquire locally.

Already paid? Apply the cost of your Yellowstone entrance fee to the purchase of this pass at Yellowstone Association stores in Mammoth Hot Springs, Canyon, Fishing Bridge, Grant Village, West Thumb, Old Faithful, Madison, Norris, Bozeman Yellowstone Airport, and Gardiner.

Park entrance fees (subject to change)					
Private, noncommercial automobile , valid for seven days at both Yellowstone and Grand Teton	\$25				
Individual motorcycle, seven days, both parks	\$20				
Single entry (foot, bike, ski, etc) seven days, both parks	\$12				
Yellowstone and Grand Teton Annual Pass, valid for one year from month of purchase for entrance to both parks	\$50				
America the Beautiful: National Parks and Federal Recreation Lands Pass, valid for one year from month of purchase for entrance fees to federal fee areas	\$80				
Senior Pass, U.S. Citizens or permanent residents age 62 or older*	\$10				
Access Pass , U.S. Citizens or permanent residents with documentation of permanent disability*	Free				
Military Pass , annual pass for active duty U. S. military personnel and their dependents with proper identification (CAC card or DD Form 1173).	Free				

^{*} Previously issued Golden Age Passports and Golden Access Passports are still accepted. They can also be exchanged for newer, more durable passes.

Campgrounds

Park campgrounds are run by park concessionaires and are **first come**, **first served**. All sites cost \$22.00. Operating seasons vary. Ask at park entrance stations or visitor centers for current status updates.

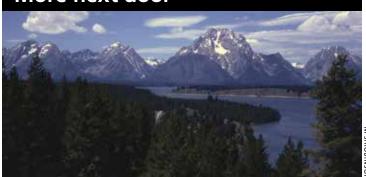

Jenny Lake is open to tents only. Other campgrounds accommodate tents, trailers, and recreational vehicles. The maximum stay is seven days at Jenny Lake, 14 days at other campgrounds, 30 days total per year.

There is a 30-foot restriction in effect at Signal Mountain and Lizard Creek. All of the park's

campgrounds have modern comfort stations. There are RV sites with full hookups at Colter Bay RV park and at Headwaters Campground and RV park.

- Colter Bay, 350 sites, usually fills by evening
- Gros Ventre, 350 sites, rarely fills
- Jenny Lake, 49 sites, usually fills by 9 AM
- Lizard Creek, 60 sites, usually fills by evening
- **Signal Mountain**, 81 sites, usually fills by noon. 24 electric hookups, 1 full hookup.

More next door

Mount Moran and the Teton Range

Grand Teton National Park offers spectacular scenery, campgrounds, exhibits, and an abundance of outdoor activities. Hiking, sightseeing, boating, floating the Snake River, horseback riding, and fishing are all available depending on seasonal conditions.

Backcountry camping requires a permit from the Craig Thomas or Colter Bay visitor centers, or the Jenny Lake Ranger Station. Walk-in permits are \$25, permits with a reservation are \$35.

Boating requires a Grand Teton boating permit, sold at most visitor centers. A Wyoming fishing license is required to fish in the park.

Grand Teton Guide, the park newspaper, is available at entrance stations and visitor centers, or on the park website at www.nps.gov/grte
