As of 01/24/10 at 2100 hrs, Sylvan pass will be closed to all travel for avalanche mitigation. Please call the public road report line at (307) 344-2117 or the administrative road report for the most current information.

[AVALANCHE DANGER](#)

(Hold Ctrl then click text above to open link.)

The addition of new snow over the past 48 hours has increased the avalanche danger. The main avalanche concern will be freshly formed wind slabs along the ridge tops. These freshly formed wind slabs will be very sensitive and will easily fail under the weight of a skier. Deep buried facets still remain in the snowpack making conditions variable and unpredictable. For today, **CONSIDERABLE** avalanche danger exists on wind loaded slopes and a **MODERATE** avalanche danger exists on other slopes

[Mammoth Weather forecast](#)
